Re: Com. v. Robert Leone  
222 CR 2010  
Bradford County

I reviewed the order and opinion of 1-2-2014.

I do not oppose Atty Marquette's suggested clarification.

P.3 para. 22 of the findings of fact (copy enclosed) stated that the D.A.'s comments were excessive, mentioning only "... a reference that the Defendant was a person who deserved to have two black eyes..." There was no such reference. The Petition and briefs never claimed that such a reference was made.

I also note that the collision was not head-on, as described in page 6.

COPY

Attorney Marquette has indicated to me that these proceedings will end here, so there may be no purpose in giving that paragraph more attention.

Very truly yours,
