

Thank you for visiting this “Justice For Robert Leone “ site, which is the only site aligned with the Larry Hohol site (The Robert Leone Story/Worse Than Rodney King) authorized by the Robert Leone family.

This is the only site authorized to collect donations to support our ongoing efforts to obtain Justice for Robert, Expose Corruption in the Judicial System, and be A Voice For Those Who Have No Voice.

First, we wish to thank all those who have followed and supported Robert and we welcome new arrivals – without you we could not have gotten this far and with your continued support we hope to exonerate Bob of the false convictions, and expose the lies and corruption not only by way of the Pa. State Police but also of the Judicial System. We are shocked to have become aware of how corrupt the system is all the way up to the United States Dept. Of Justice.

Even though Robert has been through a Criminal Trial and a Civil Trial, the powers that be – both the Public Defender in the Criminal Trial and the Attorneys in the Civil Trial – prevented Robert’s full story being told. Only part of the first hour of the torture, abuse, and civil rights violation, while in the custody of the Pa. State Police for eleven hours, has been told.

We are legally continuing beyond the Civil Trial to finally get his whole story out; to do this we need your support. This is the first time Robert’s family is requesting financial donations to continue our fight for Justice. This is the only authorized site to collect donations –DO NOT DONATE ANYWHERE ELSE-. We will keep detailed accounts of all donations and provide full disclosure and transparency.

This site will keep you informed of steps taken and progress in going forward. If you were horrified by the dash cam video, you will be equally shocked at what happened throughout the night at the barracks – you will finally get the rest of the story that was kept out of the courts.
